Task 1: Risk Assessment

Using your knowledge and understanding of the features of a risk assessment, carry out **your own risk assessment** for an activity (either sporting or practical) that you do inside or outside school.

Use the form below to help you. You can add more rows. Please ask your teacher if you need a paper copy.

Title of Activity:			Location of Activity:	
Brief description of the Activity:				
What are the hazards?	Who might be harmed and how?	What safety precautions/procedures are already in place?	Risk level? L/M/H?	What action should be taken to minimise the risk?

Year 9 Computing Summer Term 2 Homework Tasks

Task 2:

- A. Find out more about how to **stay safe and healthy at school** and **work** at <u>www.teach-ict.com/functional skills/2 select use ictsystems/d respond problems/miniweb health safety/index.htm</u>

 Please ask your teacher for a copy of the theory notes if you cannot access the web at home.
- B. Answer the following questions (preferably on a page in your homework section in OneNote).
 - 1. List 4 potential **health risks** of using a computer
 - 2. Make suggestions as how to **minimise** these risks
 - 3. Suggest ways that working practices and the work environment can cause stress to an employee
 - 4. Can you identify any ways to **minimise** stress?
 - 5. What are the **obligations** of the employer to make sure we stay safe and healthy at work?
