

## Art homework task sheet – Aut 1 year 8

**Task 1:** Create your own 3D image using background, middle-ground and foreground. Copy the above image onto a sheet of A4. Cut along the red lines and fold concertina style (like a fan). Decorate your buildings and plants. Experiment with different compositions.

**Task 2:** Create a fantasy landscape with a background, middle-ground and foreground. Use bright colours and bold shapes. Instead of trees you could draw lollipops and sweets, or pencils. Be creative!

**Task 3:** Create a spooky landscape using varying shades of grey to show perspective. You could include gravestones, crows, a haunted house or old and gnarled trees. Make sure you include a spookily coloured sky so your objects in the foreground and middle-ground stand out.

**Task 4:** Find an interesting photo (or take one yourself!) of a beautiful landscape and complete a tonal drawing of it accurately. Use at least 8 tones to create depth.
