

Aut 1 Art homework task sheet – year 10

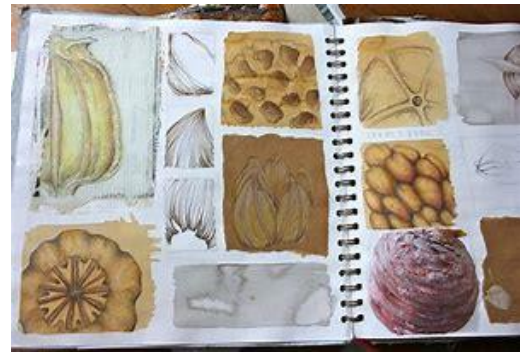

Task 1: Take photos of natural forms that have a common theme e.g. different types of flowers, leaves, trees, mammals. Print off your images to create a double page spread in your sketchbook.

Annotate your pages to explain why you took each photo and what you could use it for (in your sketchbook).

Add sketches around your photos of the things you have photographed for extra marks.

Task 2: Complete some observational sketches using materials and media you wouldn't normally think to use.

For example, make-up, coffee/tea, fabric paint etc.

Task 3: Complete an A3 full, page composition of lots of images that link to your sketchbook theme.

Play around with colour and try to include all the colours of the rainbow in your work – whilst still aiming for realism.

Task 4: Using primary or secondary observation, create an A3 full page of repetitive patterns using natural forms as a motif.
