Managing Your Homework and Revision

Time Blocking Method

Inventor Elon Musk is known for being productive. He manages his time so efficiently that he can work over 80 hours a week and still make time for himself. What's his secret? Time blocking.

How it works:

From the moment you wake up, assign each time block in your day to a task. These tasks can be anything from eating breakfast to studying for a test. Below are the steps Elon Musk uses to block his time:

1. Divide a piece of paper into two columns. On the left, write down each hour of the day and create blocks of time such as half-hour or hour chunks.
2. Estimate the time it's going to take to complete each of your tasks and fit them into your time blocks.
3. Add buffer times in between each time block to allow for adjustments during the day.

Friends Festive Sweet Treat Day – Thursday 16th December

On Thursday 16th December, the Friends will once again be in school selling their famous hot chocolate and other Christmas treats at their stall inside the Main Hall at break and lunchtime. We look forward to seeing all the students and staff there!

Wisepay

Please could parents / carers remember to top up their child's Wisepay account to enable them to purchase their lunch. Please can students also remember to bring their Wisepay cards as this helps to keep the lunch queue moving.

If a student has any difficulty in purchasing their lunch, for example insufficient funds or damaged / forgotten card, please can they go to Student Reception who will be able to assist them and ensure they are able to purchase some lunch.

If you purchase any items on Wisepay i.e. ties, badges or stationery, students will need to collect these from Student Reception once the payment has been received. Revision guides that are purchased need to be collected by the student from their subject teacher.
