

Year 8 Product Analysis (Homework 1)

- Birdhouse analysis – Find a birdhouse real (preferable) or on the internet.

Describe the appearance (aesthetics) ★

Try to find out the cost? ★

Who do you think the human and bird customer might be? ★★

Do you think it's made from environmentally friendly materials? If so what are the materials and methods of making? Why are they sustainable? ★★

Draw a picture of the bird house and label your answers around the picture.

- Create a profile, with a sketch for a bird that could live inside your birdhouse. Provide information showing you have investigated the bird.

Year 8 Homework 2 Exploring finishes and health and safety

What 3 finishes would be appropriate for wood that is used outside? ★★

You should consider the appearance and the protection of the material.

Using drawings and notes explain how you would prepare the wood and apply the protective/aesthetic finish. ★★

Consider what health and safety considerations you must make to look after yourself when producing your birdhouse.

List the risks in manufacturing your Birdhouse;

1. _____
2. _____ ★
3. _____
4. _____ ★★
5. _____

★★★

What would you do to help reduce these risks in manufacturing your Birdhouse?

1. _____
2. _____ ★
3. _____
4. _____ ★★
5. _____

★★★
